

## China National Nuclear Corporation was again ranked in the Fortune 500

Beijing time August 2nd, the United States Fortune magazine published the latest issue of the world's top 500 rankings, CNNC was again selected and ranked 371 – 122 places higher than last year.

CNNC was selected in the fortune 500 in 2 consecutive years. This is the central embodiment of the CNNC's in-depth implementation of Xi Jinping's new era of socialism with Chinese characteristics and Xi Jinping's important instructions to the nuclear industry, the modernization of the governance system and governance capacity, the strengthening of the country's capital, and the construction of a world-class enterprise with global competitiveness. This is also a strong proof that CNNC adheres to the development of security, innovation and development, vigorously promotes scientific and technological innovation, continuously promotes industrial security and high-quality development, strives to enhance the overall economic strength, continuously deepens the reform of institutional mechanisms, and comprehensively strengthens the Party's construction.

It not only means that CNNC has made progress in the process of forming a higher level of nuclear industry innovation chain and

industrial chain, which has significantly enhanced the international competitiveness and influence of the Group, but also marks an important step for CNNC to build a leader in the development of international nuclear science and technology, promote the construction of world-class enterprises, promote the high-quality development of China's nuclear industry, help "carbon peak carbon neutral" goal, and protect the ecological environment and build a beautiful planet.

The Fortune 500 has always been the most famous and authoritative list to measure the world's largest companies. With broad influence and authority, it has become an important indicator used by world-renowned companies to judge their own strength, scale and international competitiveness. As the main body of the national nuclear science and technology industry, the backbone of nuclear energy development and nuclear power construction and nuclear technology applications, CNNC has been listed in the list for 2 consecutive years. This will greatly enhance the Group's brand value, expand the Group's market influence, enhance the Group's core competitiveness.
